THE WOODS DESIGN REVIEW STANDARDS

I. GENERAL

A. These standards have been prepared by The Woods Owners' Association Architectural Review Committee (ARC) and Board. They have been prepared to assist builders, architects, engineers and homeowners in planning the development of each parcel of land.

B. The ARC is empowered by the covenants of the Association and the Board to exercise their judgment in applying the Design Review Standards. The ARC may grant exceptions to the following requirements in cases it deems appropriate.

C. The Design Review Standards are intended to protect the property values of all residents and to preserve the character and integrity of The Woods as a planned housing development according to the Master Amendment and any disputes as to the provisions hereof should be resolved pursuant to the provisions of the Master Amendment.

D. Review by the ARC is for exterior aesthetic purposes only. It is in no way intended, and should not be relied upon, as a review or approval of structural integrity, construction quality or any other building safety matter. The ARC in no way warrants that the approved improvements will be built as approved. This action is solely intended as a review of whether the submitted plans comply with the established Design Review Standards of The Woods. The builder of the improvements is responsible for all applicable government permits and approvals.

II. SUBMISSION REQUIREMENTS

A. Prior to commencement of construction the builder shall submit two sets of the following items for review and approval by the ARC:

1. plot plan (to be submitted prior to lot closing);
2. construction drawings, including front, side and rear elevations;
3. landscape plans; and
4. samples of materials for color and texture.

B. Should adjacent lots have previously approved plans builder shall show relationship between the proposed plan and existing plan, emphasizing foundation elevations, final grading, setbacks, driveway locations, color selections and home styles.

C. The ARC requires that a lot be staked for the purposes of review of an approval by the ARC. In such case excavation shall not commence until the lot has been staked out and the ARC has toured the lot and issued an approval.

D. If landscaping plans and exterior colors are not available prior to construction the builder may submit them no less than 45-60 days prior to construction completion. These items must be submitted prior to installation. The ARC may require that these items be submitted based on a schedule determined prior to the commencement of any construction.

III. LANDSCAPE REQUIREMENTS

A. The ARC will evaluate all landscape plans to insure minimum disturbance of the existing ecological systems and to preserve existing draining and vegetation. Preservation of all trees more than six (6) inches in diameter is required, if practical.

B. All homes must have a landscape plan approved by the ARC submitted at least 45-60 days prior to home completion. This plan will include sod in the front yard and side yard extending to the rear of the house. Rear yard landscaping and screening may be required by the ARC. The landscape plans shall include proof of the following minimum expenditures on additional plat and landscape materials:

Estate Lots	\$2,500.00 (Lots 1-7 and Lots 39-45)
Patio Lots	\$1,500.00 (All Lots in Section 1-5, except Lots 1-7 and 39-45)

Note: The above minimum expenditures are for plant and landscape materials over and above the cost of required sod. Sweat equity may be considered, not to exceed \$1,000.00 on Estate Lots and \$750.00 on Patio Lots, upon approval.

IV. MISCELLANEOUS REQUIREMENTS

A. No antennas or satellite dishes larger than three (3) feet are permitted without prior approval of the ARC.

B. No basketball poles or backboards of any type are permitted except on Association-owned property.

C. Fences must be approved by the ARC prior to installation. Fencing "Statement of Preference" – The Woods homeowners would prefer to be an open community without fences isolating our neighbors. Electronic collar (in-ground wire) fences are the preferred method for homeowners to contain pets on their property. (See Section VI-F for further requirements).

D. Storage sheds are not permitted.

E. Any swing sets or playground equipment, if approved, must be approved by the ARC prior to installation. All play equipment will be placed to be visually inconspicuous from the street and to minimize its impact on the views of the neighbors. Landscaping should be used to minimize this impact. The equipment will be constructed mainly of wood or good quality, preferably unpainted wood products. If not painted, the color and finish shall meet the same standards as the home colors. That is they will be of rich, subtle earth tones (browns, tans, dusty greens, warm grays and rusty red) which will blend well with the natural surroundings. A minimum of canvas roof material may be used but it must meet these same color standards. The equipment shall be maintained in good condition and removed as soon as it is no longer used. Even if it was approved before installation the ARC reserves the right to require that it be removed if it is not properly maintained.

V. GENERAL BUILDING REQUIREMENTS

A. Design Requirements. No two homes of the same base exterior appearance design shall be built within close sight distance of each other unless the ARC determines that the changes to the house elevations are sufficiently significant enough to consider the homes to be of different appearance in the opinion of the ARC. Close sight distance shall include, but not be limited to, immediately adjacent lots and the lot directly across from the proposed home. In no case shall the ARC approve a home with the same front exterior elevation as a previously built home if the homes are to be located on immediately adjacent lots or on lots directly across a street from one another.

The ARC will consider the character, design, style, color and location of any proposed home in relation to the surrounding homes as criteria of approval. Houses are expected to have architectural interest as viewed from the street. Examples include three (3) or more gables, "architectural" windows, such as large windows with transoms, palladium, etc., unique porch and/or multiple facades.

B. Exterior Colors. All exterior building materials and colors are subject to review and approval. Rich, subtle earth tones (browns, tans, dusty greens, warm grays and rusty reds) will blend well with the natural surroundings. White windows are discouraged.

C. Chimneys. All chimneys must be brick or stone, except where other materials would be more aesthetically compatible with house design and material, as determined by the ARC.

D. Lighting. Porch and garage lights are required. Post lights are required on all lots. Acceptable Landscape lighting is recommended.

E. Exterior Materials. Cedar wood siding (or wood composite siding), brick, stone or stucco type. No vinyl siding is permitted. Brick or stone on at least part of the front elevation is strongly encouraged.

VI. SECTION SPECIFIC REQUIREMENTS

The following requirements vary for separate neighborhoods within The Woods. Section numbers correspond to Lot numbers, as follows:

Section One (Lots 1-45)	Section Two (Lots 46-71)
Section Three (Lots 72-85)	Section Four Re-Plat (Lots 136-153)
Section Five (Lots 103-108)	
(Lots 110-121)	
(Lots 123-134)	

Note: Lots 1-7 and 39-45 are Estate Lots.

A. Living Area. Living areas of homes will be calculated exclusive of basements, garages and porches. The ARC may waive the following minimum requirements if the quality of the home exceeds homes of similar size and price in the surrounding area. The minimum finished living area requirements are:

Sections One through Four (Estate Lots)

Ranch	2,100 square feet
1 ½ Story	2,300 square feet
2 Story	2,500 square feet

Sections One through Four (Patio Lots)

Ranch	1,600 square feet
2 Story	1,900 square feet

Section Five

Ranch	1,800 square feet
1 ½ Story	1,900 square feet
2 Story	2,200 square feet
